Term End Examination, 2017-18

Paper -V

Introduction to RDBMS (Oracle)

Time : Three Hours] [Maximum Marks.: 100  
[Minimum Pass Marks : 33

Note : Answer all questions. All questions carry equal marks.

Explain architecture of DBMS. Compute DBMS with file system.

**OR**

Explain the various data models. What do you mean from data independence and data abstraction ?

2. Explain how we can convert ER model into relational schema. What is generalization and specialization ?

**OR**

Make an ER diagram from Banking Management system.

3. Explain syntax of inner, outer and self joins through suitable example. What do you mean by nested queries ?

**OR**

What do you mean from alter commands of SQL ? How they can be used ? Explain any five data types of SQL.

4. What do you mean from decomposition ? Explain functional and multivalued dependencies.

**OR**

Write about 1NF, BCNF, 4NF and Project join normal form.

5. Compare Relational Algebra and Relational Calculus. Write fundamental operations of relational algebra.

**OR**

What is procedural and non-procedural query language? Explain foreign key and primary key.
